ROHAN - ROSTOCK-HANOI DAAD SDG GRADUATE SCHOOL – PHASE II

CATALYSIS AS KEY TOWARDS SUSTAINABLE RESOURCE MANAGEMENT
Bilateral Cooperation Rostock - Hanoi

Call for Applications 2021 Research/Lecture Stay for Professor (14 days) in Rostock, Germany

What is RoHan?

The project RoHan is part of a new DAAD scheme, generously funded by the Federal Ministry for economic co-operation and development (BMZ), on the implementation of “SDG Graduate Schools”. The University of Rostock and the Leibniz Institute for Catalysis as well as the Hanoi University of Science and Technology (HUST) and the VNU University of Science co-operated to implement the ROHAN Graduate School from 2016 till 2020. In the second phase, from 2021 till 2025, the collaboration will establish a German-Vietnamese Center for Catalysis (GeViCat). The aim of the project is to foster the development and establishment of catalysis technologies and processes through the training of qualified Vietnamese scientists able to assume leadership positions in both industry and academia. Focusing on rightful high-quality education and promoting life-long learning opportunities for all, as well as promoting gender equality and empowering women could have a strong impact on the achievement of the Sustainable Development Goals in 2030.

What are the aims of RoHan?

Based on the SDGs – UN Sustainable Development Goals:

- development and well-being in economic, social, and technological terms (improvement of the living conditions, training of qualified persons)
- environmental protection, e.g. through sustainability in consumption and production and sustainable resource management in tackling climate change, access to sustainable energy
- establishment of a global partnership for sustainable development

RoHan catalysis

SDG GRADUATE SCHOOL

Which are the research topics?

- Catalyst for water treatment, gas purification and post-process gaseous waste treatment
- Catalysis for chemical and energy conversion
- Catalysts for mitigation of the effects of human activities on the environment
- Sustainable Materials

Who can apply for a scholarship?

All Professors from the

1. School of Chemical Engineering, School of Environmental Science and Technology or related schools at Hanoi University of Science and Technology (HUST),
2. Faculty of Chemistry of the VNU University of Science (VNU-HUS)

can apply for a research stay including one lecture at the University of Rostock or the Leibniz-Institute for Catalysis.

What does the scholarship cover?

The scholarship for Vietnamese Professors covers the travel expensive, health insurance as well as a daily grant of 100€. Further expenses are expected to be covered by the scholarship holder.

How to apply?

The application should include: Letter of Motivation (1 page) which clearly state the aim of the visit and the plan for the visit, full Curriculum vitae, a supervision agreement from research group leader in the host institutions (UR/LIKAT). A certificate of language proficiency is highly recommended (proficiency in English is mandatory).

Send your application to application@rohan-sdg.com before

28th of February 2021

(For exceptions, please contact the program coordinators)

Dr. Dirk Hollmann (Rostock, Germany, UR, dirk.hollmann@uni-rostock.de)
Dr. Esteban Mejia (Rostock, Germany, LIKAT, esteban.mejia@catalysis.de)
Prof. Le Minh Thang (Hanoi, Vietnam, HUST, thang.leminh@hust.edu.vn)
Prof. Le Thanh Son (Hanoi, Vietnam, VNU-HUS, sonlt@vnu.edu.vn)
